Datum:

ZR20: Turmaufgaben II

Die Äffchen wollen Steine für die Türme zusammentragen. Wie viele Steine braucht man für die Häuser? Schreibe die Anzahl der Steine unter den Bauplan.

Die Summe von 4 und 4 und 4 nennt man auch das Dreifache von vier.
Das Ergebnis ist die 12.

Was ist das Dreifache von zwei? _____ Was ist das Fünffache von zwei? _____

Was ist das Vierfache von drei? _____ Was ist das Doppelte von vier? _____
